

Croaker

Class: Warrior

Origin: Human

Homeworld: Ortasto

Goal: Long term- Scrape up the credits to have bioengineered lungs grown and implanted.

Level: 1

Background: Barbarian

Languages: Mandate

STR 14 +1

DEX 11 +0

CON 9 +0

INT 10 +0

WIS 12 +0

CHA 7 -1

HP 7 (7 rerolls)

AC 15 vs TL3 weapons

AC 15 vs TL4+ melee weapons & firearms

Move 10m (Unencumbered)

Base Attack +1

System Strain max 9, permanent 0

Saving Throws:

Physical 14

Evasion 15

Mental 15

Non-standard method: Attribute scores were assigned as desired.

Class Abilities: Once per scene, negate a successful attack roll against you or turn a missed attack roll you made into a hit.

Skills: Exert-0, Notice-0, Shoot-0, Stab-0, Survive-0

Foci: Close Combatant-1, Die Hard-1

Equipment

- **Readied:** Backpack (TL 0), Compad, Lazarus Patch, Monoblade Sword, Thermal Knife, Woven Body Armor
- **Stowed:** 3 x Rations (1 day), 2 x Rope (20 meters (TL 0)), Secure Clothing, Tailored Antiallergens
- **Cached:** -
- **Credits:** \$22

Readied Items: 6 (Unencumbered: up to 7, Light Enc: up to 9, Heavy Enc.: up to 11)

Stowed Items: 6 (Unencumbered: up to 14, Light Enc: up to 18, Heavy Enc.: up to 22)

Armor

- **AC 15 vs low-tech (TL3 or lower) weapons:** Readied Woven Body Armor gives base AC 15
- **AC 15 vs high-tech (TL4 or higher) melee weapons and all firearms:** Readied Woven Body Armor gives base AC 15

Melee Weapons

- **Monoblade Sword:** +2 to hit, 1d8+2 dmg, Shock 3pts/AC13, TL 4, TL 4
- **Thermal Knife:** +2 to hit, 1d6+1 dmg, Shock 2pts/AC15, TL 4, TL 4
- **Unarmed Attack:** +0 to hit, 1d2+1 dmg, Unarmed attacks always add the attacker's Punch skill to damage rolls, unlike other weapons., TL 0, TL 0

Foci

- **Close Combatant:** You've had all too much practice at close-in fighting and desperate struggles with pistol or blade. You're extremely skilled at avoiding injury in melee combat, and at level 2 you can dodge through a melee scrum without fear of being knifed in passing.
 - **Level 1:** Gain any combat skill as a bonus skill. You can use pistol-sized ranged weapons in melee without suffering penalties for the proximity of melee attackers. You ignore Shock damage from melee assailants, even if you're unarmored at the time.
- **Die Hard:** You are surprisingly hard to kill. You can survive injuries or bear up under stresses that would incapacitate a less determined hero.

- **Level 1:** You gain an extra 2 maximum hit points per level. This bonus applies retroactively if you take this focus after first level. You automatically stabilize if mortally wounded by anything smaller than a Heavy weapon.

Equipment Descriptions

- **Backpack (TL 0):** A worn backpack counts as a readied item, though objects stowed inside it still require the usual round to dig free. Characters without backpacks or similar carrying devices might have difficulty justifying the hauling of large amounts of gear. (enc. 1)
- **Compad:** One of a host of different hand-held portable communications devices. Most TL4 worlds have global comm coverage, but primitive worlds render these devices useless without a nearby comm server to provide connectivity. (enc. -)
- **Lazarus Patch:** A vital tool for adventurers, the Lazarus patch is a heavy compress laced with antibiotics, coagulants, system stabilizers, plasma, and a oneshot diagnostic suite. If the patch is applied to a character that has fallen to 0 hit points, the user can make an Int/Heal or Dex/Heal skill check against difficulty 6 to stabilize the subject. The more time between injury and application, the less chance the patch has to work. Each round after the first, an additional -1 penalty is applied to the skill check. The patch is no use after six rounds. If the medic fails the first skill check, they can keep trying the check once per round until the victim is revived or time runs out. Lazarus patches are no use on victims that have died of disease, poison, or have been mangled beyond surgical repair by Heavy weapons or similar trauma. Only one patch can be applied to a victim. Revived victims are critically wounded until sufficient medical help has been tendered; see the Systems chapter for details. (enc. 1 for 3)
- **Monoblade Sword:** Medium weapons are one-handed swords, axes, spears, or other obvious implements of war. While they can't be effectively concealed in anything smaller than an enveloping cloak or coat, they're also more damaging to an unfortunate victim struck by them, albeit they're somewhat less nimble when the wielder needs to strike at unprotected flesh. Spears and similar aerodynamic weapons can be thrown up to 30 meters. (enc. 1)
- **Rations, 1 day:** Dried or otherwise preserved foodstuffs sufficient for one day. If water is not otherwise available, add another item's worth of encumbrance for the water necessary for a person's daily needs. (enc. 1 for 3)
- **Rope, 20 meters (TL 0):** Basic hemp rope or similar. (enc. 2)
- **Secure Clothing:** Secure clothing comes in assorted styles and fashions ranging from casual street wear to haute couture. Normal fabrics and components are replaced with light, flexible armor components that are only slightly hindering to the wearer. Only close tactile examination can distinguish secure clothing from ordinary couture. (enc. 1)
- **Tailored Antiallergens:** A dose of tailored antiallergens can be used to render a local world's organics largely edible by humans and its atmosphere breathable without severe allergic reactions. While many worlds have been seeded with Terran life forms or have produced organics that are edible by humans, others are toxic without the appropriate chemical augmentation. A dose of these antiallergens lasts for twenty-four hours. (enc. -)
- **Thermal Knife:** Small weapons are small one-handed implements no larger than a baton or knife. These weapons are easily concealed in normal clothing, and can even be kept Readied up sleeves or in tailored pockets. Many can be thrown at a range up to 10 meters. (enc. 1)
- **Unarmed Attack:** Unarmed attacks reflect ordinary kicks and punches. Unarmed attacks always add the attacker's Punch skill to damage rolls, unlike other weapons. Kinesis wraps, spiked knuckles, and other small fist weapons may be treated as small advanced or primitive weapons that use the Punch skill and add the skill level to their rolled damage, but not to Shock. Such weapons do not augment a hero with the Unarmed Combatant focus. (enc. 0)
- **Woven Body Armor:** Woven body armor represents the best armor that a TL3 world can manufacture, or an up-armored version of security armor used by TL4 high-threat response teams. The design is significantly more cumbersome, but allows for multiple layers of protection. (enc. 2)

Skills

- **Exert (Level 0):** Apply trained speed, strength, or stamina in some feat of physical exertion. Roll it to run, jump, lift,

swim, climb, throw, and so forth. You can use it as a combat skill when throwing things, though it doesn't qualify as a combat skill for other ends.

- **Notice (Level 0):** Spot anomalies or interesting facts about your environment. Roll it for searching places, detecting ambushes, spotting things, and reading the emotional state of other people.
- **Shoot (Level 0):** Use Shoot as a combat skill when using ranged weaponry, whether hurled rocks, bows, laser pistols, combat rifles, or ship's gunnery.
- **Stab (Level 0):** Use Stab as a combat skill when wielding melee weapons, whether primitive or complex.
- **Survive (Level 0):** Obtain the basics of food, water, and shelter in hostile environments, along with avoiding their natural perils. Roll it to handle animals, navigate difficult terrain, scrounge urban resources, make basic tools, and avoid wild beasts or gangs.
